EDMONTON, THURSDAY, JUNE 9, 1910.

No. 145

VERMILION LIBERALS ARE ALL FOR SIFTON

Premier was Greeted with an Ovation and Given the Nomination Unanimously.

NO DETAILS GIVEN

Mr. Sifton Only Outlined his Policy Generally—Construction of Railway will be Vigorously Pressed.

(By a Staff Correspondent.)
Vermilion, June 9.—The extensive development of the agricultural and mining industries, the rapid settling of the province, and the providing of suitable means of transportation at as early a date as possible—such was the policy of the new government as outlined by Premier Sifton at last night's Liberal convention held here at which he received the unanimous nomination as the Liberal candidate in the bye-election to be held on June 20th.

The one and only thing that the Premier laid special stress upon was an advanced railway policy.

Railway Policy
"I hope," said he, "if we remain in power long enough, that there will be a part of this province where settlers raising marketable produce will not be able to come into market and return home the same night."

"That is the only settlement of the railway policy of this province and whether it is this year or next or later on it will be done eventually and it is my intention to direct every effort to the accomplishment of this aim as rapidly as possible."

No Details of Policy
Other than this, nothing definite was announced as regards the policy of the new government. Those who expected that the premier would make some such announcement were sadly disappointed.

"I am not going to weary you by going into any details of policy," said Mr. Sifton, "nor will I at this time attempt to discuss the exact way in which large public interests should be settled. I myself do not know how these will be settled. I do not think that you would consider it proper that I should by any definite policy before you before the cabinet has gone into the matter thoroughly and the government policy has been laid before the members of the Legislature."

Conservatives Like Him

All the speakers, with the exception of the Premier, expressed the hope that the old G. W. contract would be cancelled, and that either the government would build the road, or else see that the contract was given to a company that "would build and operate the road," as Mr. Holden put it. In expressing this sentiment, Mr. W. F. H. Thompson, a strong conservative and ex-president of the Conservative Association of Victoria, stated that he would do all he could to return Mr. Sifton, and hoped that he would be elected by acclamation.

Premier's Arrival
Premier Sifton arrived here at half past seven o'clock yesterday evening. He came down from Edmonton on the local, and was twelve hours on the road. Arch. Campbell, the retiring member, and James Holden, the member for Vegreville, accompanied him from Vegreville. Many prominent men of both political parties were at the station to meet the Premier, and for several minutes he had a busy time of it shaking hands. From the station Mr. Sifton went directly to the hotel, and after a hasty supper, he was taken over to the town hall where the meetings were held.

The Convention
The convention was called for eight o'clock, but before the delegates' cer-

SIFTON'S RAILWAY POLICY

I hope, if we remain in power long enough, that there will be a part of this province where settlers raising marketable produce will not be able to come into market and return home the same night.

"That is the only settlement of the railway policy of this province and whether it is this year or next or later on it will be done eventually and it is my intention to direct every effort to the accomplishment of this aim as rapidly as possible."

ifications were all passed upon it was after nine. Owing to the fact that the convention had been called upon such short notice, there were not many representatives from the outside districts present. Eighty-nine polls were represented, however, either by delegate or by proxy.

When the meeting was finally declared open for business, it was decided unanimously to have open nomination to the Legislature.

Dr. Ryan immediately took the floor. "It gives me much pleasure on this occasion," said he, "to nominate as our representative to the Legislature the Hon. A. L. Sifton, premier of the province."

Mr. Arch. Campbell seconded the nomination. It was then moved and seconded that the nominations closed, and the motion carried amid applause.

Sifton Enters.
At this moment Mr. Sifton was ushered into the room, and was given an ovation. When he entered, he thanked the convention for the honor they had done him, and then took a seat on the platform.

Arch. Campbell was then called on to address the meeting, and was received with cheers. In a graceful speech he welcomed Mr. Sifton, and explained how he had resigned his seat for the premier.

Sifton's Address.

"Then came the address of the evening. "It is eight years since I have made a speech of any kind before an audience in Alberta," began Mr. Sifton, "and I do not intend that this one shall be of any great length."

"As I told Mr. Campbell when he came to me and so gracefully tendered his seat to me, his was the seventh offer that I had received, but as it was such a lucky number, I did not dare refuse it."

"This is an agricultural constituency, and as this province is chiefly agricultural, I consider it an honor that you have asked me to be your representative in the Legislature. I hope that you may never have cause to regret your choice."

Has High Hopes.

The premier then expressed the hope he would live to see the time when Alberta would take the place she merits among the provinces of the Dominion. He had watched this province grow for the last thirty-five years, and he had great faith in it. He considered it an honor to be able to help in the administration of such a large portion of the Dominion. "There are strenuous times ahead of the present administration," continued Mr. Sifton. "For the next three or four years there will be many great difficulties for this administration to overcome, that is, if we are in power that long. But we shall set ourselves to the task of solving the problems that confront us, and if we have the support of the people, I believe that we shall succeed."

Will Give All His Time.
The premier then made the references to his policy quoted above, stated as long as he was in politics he would devote his whole time to the affairs of the province. He said he had no private business now, and so there would be nothing to take his attention away from public matters. "To those who are so anxious that I should state a policy," said Mr. Sifton, "I would say that my chief policy is that the members of the Legislature and the public should be

(Continued on page eight.)

CAMPBELL WAS MADE PRESIDENT

Former Member for Vermilion Unanimously Elected President of District Association

Vermilion, June 9.—(Special.)—At the annual meeting of the district Liberal Association held here last night, Mr. A. Campbell, ex-M.P.P., was elected president for the ensuing year by a unanimous vote.

"I consider it almost a great honor as being your representative in the House," said Mr. Campbell, in thanking the delegates.

Dr. Ryan of Vermilion was elected vice-president, and A. W. Roseborough as secretary.

MOTHERS SHOULD KNOW THE FAMILY

Therefore, Louisiana Legislator Would Abolish Bridge Whist in That State

Baton Rouge, La., June 9.—Representative De Rouen has given notice of a bill in the lower house for the "absolute suppression of the playing of bridge whist."

"I am introducing this measure," declared Mr. De Rouen, "for the benefit of the children of my state who rarely have an opportunity to know their bridge playing mothers. It is also for the benefit of husbands who rarely have a speaking acquaintance with their bridge playing wives."

POLICEMAN'S NERVE SAVED MANY LIVES

New York, June 9.—Two broken windows in a Brooklyn saloon today caused Policeman Timothy Daley to make an investigation. Entering the place, he saw a bomb with a spluttering fuse attached lying on the bar. Daley jumped behind the bar, found a bucket of water, threw the bomb into it and then carried it to the middle of the street.

Examination proved that the bomb was powerful enough to have wrecked the place and imperilled the lives of a number of persons who lived in the building. The owner of the place had recently received several letters threatening harm unless money was given the writers.

WIRELESS TELEGRAPH AND TELEPHONE STATION HERE

Will Connect This City With Calgary, Winnipeg and Vancouver Before Winter

Edmonton and Calgary will be connected by wireless telegraph and telephone before the end of the present year.

This is no dream, but an actual fact. Already contracts have been let for the construction of a transmitting tower here, and according to James Horsfall and Charles Marshall, the representatives of the North American Wireless Corporation who are in town today completing arrangements for the opening of a station here, Edmonton, Calgary, Winnipeg and Vancouver will all be connected by wireless before the snow flies.

When a Capital reporter called to see Mr. Marshall in his room at the Alberta Hotel this morning, almost the first thing that he was asked to do was to put the strange looking apparatus that is used to demonstrate the practicability of the wireless telegraph. The reporter was taken out in the hall and around a corner. The receiver was placed in his hands, and then he heard Mr. Horsfall talking to him. The words were as distinct as over the ordinary telephone.

There is absolutely no connecting link between the transmitter and the receiver except the Hertzian or ether waves. The receiver consists of a hoop about three feet in diameter. In this hoop are five copper wires or antennae that collect the ether waves. Then there are two ordinary receivers attached to this and that all there is to the instrument. The transmitter is equally simple in ap-

TO BRAZEAU BY THIS FALL

And to Athabasca Landing Also—Immediate Extensions Planned by C. N. R.

WILL BUY ALBERTA LAND

C. D. Davidson Says His Company Will Purchase Large Tracts of Farming Land

A. D. Davidson, who is connected with the land department of the Canadian Northern Railway, arrived in the city this morning. In conversation with a reporter from the Capital, Mr. Davidson stated that the C.N.R. branch line to Athabasca Landing would be completed before winter, and that the branch line from the G.T.P. down to the Brazeau coal fields would be in operation so that it would be possible to commence the shipment of coal this fall.

Mr. Davidson had just received a cable from his brother, Col. Davidson, who is in England, stating that he had sold 50,000 acres of C.N.R. lands in Saskatchewan. In this connection Mr. Davidson stated that the company did not own as much farm land in Alberta as they wished, and that they intended to buy up large tracts of good farming land.

Town sites along the C.N.R. branch lines from Vegreville to Calgary and from Saskatoon to Calgary will be thrown open very shortly, particularly near the Red Deer river.

"In regard to the Brazeau coal fields, it is the intention of the company to rush the completion of the branch line, and then bring in the coal over the main line of the G.T.P. Mr. Davidson also made reference to the work of development that is to be rushed at the Dunsuir collieries. According to their engineers there is 600,000 tons of coal there, and as the C.N.R. expects to get it out at the rate of 200,000 tons a year, it will only last for three hundred years."

Mr. Davidson is accompanied by his family, and a Mr. H. C. Garvin and his family. The party leaves this afternoon for the coast, where Mr. Davidson will inspect the C.N.R. interests.

Of course when the towers are erected for transmitting commercial messages, the apparatus looks a little more complicated, but there is really nothing very mysterious about it. The practicability of wireless telephony has been established beyond all question. When the local tower is erected and the company is open for business here, it will be possible both to telephone and telegraph by wireless at about one-half of the rate charged for the present systems.

One great beauty of the wireless system will be that they will be connected with the local telephone system. Supposing that you wish to talk to a friend in Calgary or Winnipeg. First of all you call up the local station, ask to be connected with so and so, and then start talking. This is done by changing the receiver of the ordinary telephone to the receiver of the wireless.

Some wonderful things have already been accomplished with the wireless telephone. Stations are in operation in Chicago and New York and messages are sent between these two points every day. Recently an arial was placed over the stage of the Metropolitan Opera House in New York, and Caruso's voice was transmitted two hundred miles out to sea. Robert Guggenheim of New York has a radiophone installed on his automobile by which he can get into communication with his office while riding in his car. It has also been successfully used on aeroplanes.

These are only a few of the wonderful things that have already been done with the radiophone, but they are nothing to what the future has in store for this wonderful invention.

INSURE AGAINST UNEMPLOYMENT

Anglican Churchmen in Australia Ask Government to Take Up the Scheme

Melbourne, June 9.—Replying to an influential deputation of Anglican churchmen who pleaded for the early formulation of a compulsory scheme of national insurance against unemployment, Hon. Mr. Fisher, Premier of Australia, promised that the matter should have the early consideration of the cabinet. He regarded insurance, however, as only a temporary expedient.

DROWNING AT OWEN SOUND

Owen Sound, June 9.—Frank Peake, thirty-seven years old, stumbled and fell into the water at the C.P.R. dock here and was drowned.

MANY BODIES IN THE RUINS

King and Queen of Italy Watch the Work of Rescue at Caltri

People of Naples Believe That Patron Saints of City Caused the Earthquake

Caltri, June 9.—The ruins of Caltri and the adjoining villages were inspected yesterday by King Emmanuel and Queen Helen. Most of the houses in Caltri have been destroyed and the people who escaped from the effects of the earthquake are camping in the fields. Thirty more bodies have been uncovered, while eight or ten more are thought to be still under the fallen walls. Two were taken out in the presence of the King.

One section of the town is almost completely buried under the walls of the castle which was toppled over by the first heavy shock and came crashing down the hill, crushing the houses below. The work of excavating is being carried on rapidly, but contrary to experiences at Messina and Reggio, no one is being unearched alive. A two-year-old baby, however, was found close beside a heap of wreckage and was brought to life.

The Duke of Aosta also visited the villages and inspected the work of relief. The sovereigns did not rest for thirty-six hours. When they departed last night for Rome there were touching demonstrations, many of the women kneeling before the Queen. The visit of their Majesties has done much toward restoring order and confidence and the King's last act before his departure was to issue instructions that every possible relief measure should be taken to care for the stricken people.

Killed on Vesuvius.

Naples, June 9.—A Sifton of San Francisco met sudden death today on Mount Vesuvius. He had climbed up the mountain which since the earthquake had shown signs of great activity and approaching too near a fissure which was emitting sulphuric gases he was overcome by the fumes and died almost instantly.

Saint Is Blamed.

Rome, July 9.—The earthquake is attributed to Naples to the wrath of St. Januarius, whose blood did not flow, according to the traditional miracle. A huge procession is being organized to appease the saint. St. Januarius, who is the patron saint of Naples, suffered martyrdom by beheading while he was bishop of Benevento. His body lies in a crypt of the Cathedral while his head and two phials said to contain his blood are in the chapel. The tradition is that when the blood is placed near the head it becomes liquid. Whenever the blood fails to liquefy the people regard it as a bad omen.

C.N.R. BOATS CARRY MAIL

It Is an Experiment, But May Be a Useful Thing.

Ottawa, June 9.—The Canadian Northern liner "Royal George," which sails from Montreal today, will carry the mail as an experiment. It is not unlikely that the experiment is a success the Royal Liners will carry the mails regularly.

CROWN'S CASE IS FINISHED

Evidence for Prosecution Is All in the Trial of W. O. King

DR. REVELL'S EVIDENCE

Provincial Bacteriologist Said Blood Marks on Hindall's Skull Indicated a Fracture

The Crown's case was completed in the trial for murder of W. O. King this morning. Dr. Revell, the provincial bacteriologist, gave evidence as to the condition of the skull and bones found in the burnt manure pile. The broken edges of the pieces of the skull had blood stains on them and also showed signs of being subjected to great heat. Detective Sergeant Nicholson was again on the stand, but very little evidence of importance was forthcoming. Mr. Robertson continued the cross-examination.

Turning to the subject of the burning of the manure pile, under which was supposed to be the body of Hindall, he asked the witness if he had been to the stables previous to the time he went with the prisoner. Nicholson said he was there in December, 1907.

And in answer to a question as to whether the manure pile was burnt then, he said it was not burnt until July, 1908. The bones found in the pile were taken to Fort Saskatchewan and placed in charge of a doctor. The house where King lived in 1908 was barely fifty yards from the place where the bones were found, but when Sgt. Nicholson saw it it was burned down. Sgt. John W. Phillips was next called to the stand and said that he was stationed in Edmonton from June 1907 to April 1909, in charge of the Edmonton detachment. In August '08 he received the accused into custody from Sgt. Nicholson and held him for three or four days before he was sent to Fort Saskatchewan. He later on was brought in again, he escaped, and after his arrest he was brought to Edmonton again.

The next witness was Dr. Revell, provincial bacteriologist, who stated that he received a full set of notes on King's case to be analyzed. He cut open the cap and after a careful examination he found several black hairs, which he produced in court. Tests were made for traces of blood and the examination showed that it was human blood.

Some fragments of bones were also received by Dr. Revell, who identified them as human bones. He then was asked to read his notes on his examination of the bones. Fragments of the ankle, knee cap, shin bone and a small portion of the backbone were found and the doctor showed each piece, and was asked by the jury. Dr. Revell produced some portions of the human skull which he said seemed to him to be blood stained; he applied tests and found it was so. The skull, he said, showed signs as if it had been fractured, the broken edges being stained a brown color, which proved to be blood. They also showed signs of being subjected to great heat. They also indicated that the man must have been of medium height.

Mr. Robertson asked the witness if he thought the action of ammonia on the skull, as it would be affected in the manure pile, would be likely to produce stains, to which the doctor answered that the stains indicated the presence of iron.

Mr. G. Dunlop, who was with the May-Sharp Construction Company, was next called to the stand. He said he was with the company during the building of the Clover Bar bridge. The position of the stables and barns was then indicated by the witness, who corroborated the previous evidence on this point.

Mr. Robertson then asked for an adjournment until two o'clock in order to enable him to consult his client, who, he said, he was going to advise to give evidence, so it is likely that King will be put in the witness box this afternoon.

We like to have callers come in and get acquainted with "what's new." We'll not urge you to buy for this is not a store that annoys. Mrs. Clothing store.

THE AFTERNOON STRUGGLE WAS A HEART TICKLER

**Eskimos Overcame a Five Run Lead in the Ninth—
Dellar Relieved Dretchko—Score was 9 to 8.**

Anybody who did not get their money's worth at the afternoon game between Eskimos and Regina, must have an inflated idea of the purchasing power of two bits.

Features, why they were so numerous as girls around a soda fountain on a hot July afternoon! Some of the most noticeable were:

1.—The beautiful self-satisfied look on the faces of the fans during the first seven innings.

2.—The hot day. But why talk of the weather when there are thrilling deeds to be recorded?

3.—The horrible shock when the lovely Bonapier made six runs in the eighth, and left by 8 to 3.

4.—The exhibition of association football in the ninth, staged by the Regina baseball club. The foaming at the mouth of Walters, Elsey, Donovan and six others, when Eskimos pushed first run over the pan and tied up the old game.

5.—The arrival of Dellar and Hoffman and the departure of Dretchko and Samuels.

6.—And last—Moose Baxters' hit that won the game in the tenth. Score 9 to 8.

Remarkable En Passant:
Dretchko and Rosy Walters were the pitcher talent and at the start it looked like a battle between them.

Edmonton scored once in the first on base on balls and Collins' error of Chesty's long fly. A fast double killed off the visitors.

The visitors went into one-two-three in the second. Dretchko and Morse got hits, but our half was productive of nothing.

Both teams quickly disposed of one another in the third and Dretchko fanned two men in the first of the fourth.

Quigley first up, hit safely to right and galloped to third on Hoffman's error in fielding Spencer's run. Deacon flied to Elsey. Dretchko scored once with a safety pass third and Rosy Walters scored.

Visitors' First Tally
Regina broke into the run column in the fifth. After Hoffman and Collins were dead men, Walters, McNutt and McDonough came to the plate with bingy bingles and a run was the result. Chesty got to third in this stanza and remained there.

Dretchko got the first three men to face him in the sixth, one by the ozone whiff. The Eskimos increased their tally to three in this manner: Quigley walked a pass, purloined second and was sacrificed to third by Spencer. Deacon bobbed up with his specialty, a place hit, scoring our second-scorer. Dretchko moved our manager along by a sacrifice and Morse perambled. Mills' best effort was a fly short stop. One run.

Visitors are Persistent
Hoffman started the seventh with a glorious triple, which hanged about the right field fence. Collins struck fly to Chesty scored the runner. Walters and McNutt were set back by Morse and Baxters' run.

Baxter, Cox, and Lussit all knocked 300 with the fatal result that hitting happened.

Oh, What a Headache
Sweethearts may come, and sweethearts may go, but, by jimminy, we will never forget this eighth inning. We live to be a hundred. Dretchko fanned seven working all afternoon for the hundredth of sickness, seem to fade away entirely. Windy Bill tied the riot with a single and Chandler followed the bad example.

He hit one that Morse couldn't field and Donovan scored. Elsey scored, scoring Chan, and stole second a moment later. Hoffman smacked Letcher and Elsey crossing in front of Stub's glowing countenance.

Bowery Collins, by way of safety, picked a soft one for a two-throw which resulted in Hoffman being hit for the plate. The tough old purloined third and cantered to home. Wally Mills dropped.

At last we had a man out, but Stub hit to Chesty and McDonough fanned. Six runs chalked up. The teachers looking like Entennoes on a quiet day.

Two flies and a grounder was the total of the Eskimos' swatting the last of the eighth, and we seemed to have as much chance of beating Regina as Kid Scaler would have of knocking out Jim Jeffries.

McDonough started the ninth with a double to deep centre and the gloom increased a thousand per cent. Donovan sacrificed Mac, along to third and there the Bonapier gathered moss as Chan, fouled to Stub and Letcher fanned.

Don't Miss This
Words cannot begin to describe the delightful ninth inning. We cherish the thought that even old Bill Shakespeare would be at a loss. Dretch was first up with a lead of five runs starting him in the physog. He hanged one to Windyhurst and Bill hoisted it. A suspicion of a yell was heard from the bleachers. Pete's contribution was an easy boundary, to Chan, who caught Dretch at second. Ruhe Mills coasted a pass, and Rosy who had pitched splendidly up to date, gave his first signs of aeroplaning. Baxter was the hitter with a single to left and Rosy found himself with three on base. Chesty's best was a grounder to pitcher. Walters' pegged to the plate and Morse was out. Three on bases, two gone and five runs scored. Chances looked far from rosy and some faint-hearted fans even went so far as to leave. We'll bet they are sorry now.

Now for the Fun
Lussit, as on several previous occasions, was there with the necessary hit, scoring Mills.

Quigley tried hard to knock Hoffman over with a grass cutter. The second baseman threw to second ball and this play allowed Moose to score and Quigley to reach first. Spencer drove one towards Donovan and Bill made his second error of the innings. Cox and Baxter gaily galloped home. One to tie and a run from the bleachers like Niagara Falls.

After the ice-jam has broken, there were wild supplications hurled towards Deacon, for a hit, and the Persians managed. One run. The safety, and Quigley galloped to the plate. Seeing there was no chance of catching our second baseman, Donovan, who had received the ball on a relay from left field, threw to second and caught Stub cold. But Quigley had crossed the plate before the third run was scored.

Regina Waxes Wroth
The enthusiasm of the spectators was as nothing beside their enthusiasm for the Eskimos. All talking at once they clustered around Sammy and tried to show him by means of algebra, geometry and even some bad language, why the tyrant should not be obliged. He combated to be any fall guy and quite rightly stuck to his guns. It looked very much as if Rosy would forfeit the game. He worked himself into a frenzy and yelled up the mound. Just at this crucial moment, Empire Flaherty, who had come in on the afternoon train, stepped into the park, and took charge of affairs.

Dellar Relieves Dretchko
He ordered the visitors to bat and they grudgingly complied. Elsey started the extra period with a hit and Deacon promptly derided Dretchko. When Dellar took the centre of the diamond everybody felt confident of victory. Hoffman hit to Morse, and a fast double finished Morse, Elsey and Hoffman. Collins bunted safely to Dellar and got second on Morse's error. Walters fanned and Stub missed the third strike. Every look third on the misplay and a moment later Rosy was allowed to steal second. McNutt hit a grounder to Dellar and made the third out. No runs.

We Win the Game
Dellar was the first man up and flied to Letcher. Rosy Morse coasted four wild ones and on top of this purloined second. Mills flied to Hoffman and two hands were down. Our hopes were pinned to Moose Baxter and he did not throw us down. Waiting for a likely one, he tore off a safety to right which was as potent and comely a smash as has been seen on the Diamond Park velvet this summer. This hit brought Morse in with the winning run. Another game in his bag.

If you have a weak heart, don't read this box score:

Edmonton	AB R H P O A E
Morse, s.s.	4 1 2 6 2
Mills, 1b	3 2 0 2 0
Baxter, 1b	6 1 2 12 1
Cox, rf	4 1 0 1 0
Lussit, cf	5 1 1 1 0
Quigley, 2b	4 1 3 3 0
Spencer, c	2 0 8 1 1
White, 3b	5 2 1 4 0

McNutt, c	0 1 6 0 0
McDonough, 1b	0 2 2 0 0
Totals	40 8 13 29 16

Two out when winning run scored.
Edmonton.....100 101 005-1-9
Regina.....100 010 160-0-8
Summary—Two base hits: McDonough, Collins. Three base hits: Hoffman. First on balls: off Dretchko 1; off Walters, 4; by Dellar 1. Left on bases: Edmonton 10; Regina 5. Double plays: Morse to Quigley to Baxter; Morse to Baxter. Stolen bases: Morse, Cox, Letcher, Elsey, Collins and Walters. Sacrifice hits: Dretchko, Dretchko, Collins. Time of game: 2:30. Attendance 500. Umpires: Samuels and Flaherty.

AVERTAGES OF THE REGINA SERIES

Just Glance at the Batting Figures of the Eskimos—Eight Batted Over .300

The Edmonton-Regina series proved the locals to be the visitors' superiors in all departments of the game. In addition to taking three straight games, the Eskimos out-batted and out-fielded their opponents. The figures are:

Edmonton	AB R H P O A E
Edmonton	37 9 30 17 5
Regina	40 8 13 29 16

With the Pitchers
Grady, Dretchko and Dellar were all successful in winning their games. The first fanned 4 and walked 5. Dretchko walked 1 and struck out 5 while Dellar struck out 3 and walked the same number.

Batting Averages
Mills.....10 5 .500
White.....8 4 .500
Dellar.....2 1 .500
Quigley.....12 5 .384
Lussit.....14 5 .357
Morse.....12 4 .333
Dretchko.....6 2 .333
Cox.....13 4 .307
Spencer.....9 1 .111
Grady.....4 0 .000

WE ARE AT YOUR HEELS
Deacon White has a new team or thereabouts, and the changes are not all over yet. His hospital list has been greatly reduced in size, and now he can make it up as he likes. The big surprise is the fact that he is not called Olsen, the outfielder. He had to select between Mills and Olsen, and concluded that Mills was the better man. He has a new man named Quigley for the second base. For the outfield he has Lussit, Cox and Mills.

"DOPE"
"What's the matter, old man? You are all of a shakedown!"

"Somebody swiped the sporting page of my newspaper. I've got to have my daily baseball dose or I'm no good for anything—Pittsburg Post."

Lee Samuels did good work for a man who is a novice at umpiring. The disputed decision was correct as he stated it and Rosy Walters can easily find out the truth of this assertion by consulting a rule book.

SLIDING HOME

Furrows Were Worn on Home Plate Yesterday—Sidelines on the Double-Header

We quite miss those box cars. And so do several others, we'll wager.

Samuels was glad to see Flaherty appear. It saved Rosy fifty bakes.

Dellar did the rescue act to a nice fly. That double play helped a lot.

Two out doesn't bother the Eskimos. They are liable to tear off six runs at any moment.

Chesty says Edmonton has Florida beaten to a standstill. Oranges are twice as plentiful here.

Stub's footwork behind the plate was worthy of Jim Jeffries. Flaherty refused to nibble.

Umpire Flaherty has an Irish name, a German face, and a Galician accent. Outside of that he is all right.

Calgary and Medicine Hat both figured in shut-outs. We were on the verge of it.

Heirich held the Hatters to one hit, but Brandon errors lost the game for him.

Looks as if Umpire Brown had been canned. Flaherty is a huge improvement.

Moose Baxter always atones for any fielding errors, by the timely bingles.

Dretchko was in no shape to pitch a game. He has not become acclimated yet and is feeling under the weather.

Rosy Walters is some class as an utility pitcher and pretty nearly got away with the game. His support was pitiful.

Winona, Minn. has a pitcher by the name of Boski, of Sleepy Eye. But even with this handicap he is making good.

For a first-class imitation of the future home of bad men, we recommend the "press-box" on a sunny afternoon.

Hoffman, the visitor's second baseman, had twenty-two chances in the two games and only slipped up on two hard ones.

Some unattached fans last evening, cursed the latest styles in ladies' millinery. Probably they do shut off the view to a slight extent.

How would a vaudeville team Cox and Bowery take your fancy? The cultured Mr. Collins is a rare juggler and then think of his fatal beauty.

As the Capital predicted, before the season opened, Edmonton, Medicine Hat and Calgary will fight it out for the pennant.

Medicine Hat is due for a tumble when Dellar gets after them. He is easily the leading pitcher in the league.

The Ladies think that Dellar is "too sweet for anything." What the men say is "Gee, dat boy's dere wid de goods."

Chesty was the recipient of a handsome presentation when he first stepped to the plate in the evening. The bleacher's favorite will use the gift exclusively for coaching.

Chan, caused several veteran fans to think the good old days were back, when he attempted a "hide the ball stunt." The Eskimos refused to bite at any reminiscences of a past.

Bill Davis and his Robin Hoods from Moose Jaw will be our visitors this evening. Reception starts at 6:30. Come and see the Eskimos capture the robber band.

Some of the star ball players who love to play fire department in automobiles will smash all hitting records of these days if they keep up the good work.

Lethbridge rather got to Mr. Spencer of Winnipeg yesterday, when they collected 14 hits. And just imagine Cy. Pieh won again. We can just picture him strutting around the Alexander today. Who said modest?

ESKIMOS MADE CLEAN-UP DELLAR WON 7th GAME

Final Score was 4 to 1—Ladies' Day Brought out the Millinery—Presentation to Chesty.

Our Score Now Three
Regina—Walters out via the Morse-Baxter route. Deacon made nice stop on McNutt's sharp grounder and got him at first. Grimes fouled to White. No runs.

Eskimos—Dellar bled four wide ones, Dellar bunted and Grimes threw badly to second. Deacon got third but our peerless pitcher was nailed at second station. Morse flied to Collins. Deacon held third as throw was too close for safety. Ruhe Mills hit one over third station, scoring Deacon. Our left fielder was caught stealing. One run.

And Still Another
Regina—Donovan, a first victim, Moose to Baxter. Pete then took Chandler's high infield fly. Letcher drove a fast one to left but Bill Lussit took Elsey's long drive on the run. No runs.

Eskimos—Moose grounded, second to first. Chesty was also disposed of by Rosy and Elsey. Lussit bled a grounder to Chandler, the throw being low. Bill took second by a theft and scored when Elsey let Quigley's grounder percolate through his legs. (beg pardon, limbs). Quigley showed how easy it was to steal the middle bag. Spencer's roller was taken care of by Hoffman. One run.

Seventh Innings
Regina—Hoffman fanned and Collins walked. Chesty took Walters' fly with thanks. McNutt uncorked a single to left. Grimes hit to Morse and Mac was forced to second. No runs.

Eskimos—Old Scout Deacon hit through short. Dellar was there with the beauty catcher. Deacon was grabbed at home when he tried to score on Morse's single to left. Grimes' peg to Elsey set Mills down. No runs.

Eighth Innings
Regina—Donovan flied to Morse. Chandler drove one past Dellar and Morse by fast work got the batter at first. Letcher grounded, Deacon to Morse. No runs.

Eskimos—Baxter was thrown out at first by Walters, while Chesty was also a victim of the visiting infield. Lussit bled one through second for Collins. No run.

Visitor's Lone Tally
Regina—Elsey out, Quigley to Morse. Dellar walked Hoffman and Collins was safe when Quigley booted his grounder. A hit to right by Walters scored Hoffman. Deacon made a bad throw and McNutt was safe at first. Moose relieved the tension by catching Grimes' foul fly and Donovan's grounder forced McNutt at second. One run.

Edmonton wins by 4 to 1.
Figures for the dopestors follow:
Edmonton
Morse, s.s.....1 2 5 0 0
Mills, 1b.....3 0 2 0 0
Baxter, 1b.....4 0 8 1 0

Lussit, cf.....4 1 3 0 0
Quigley, 2b.....4 1 4 2 1
Spencer, c.....3 0 2 0 0
White, 3b.....2 1 2 2 1
Dellar, p.....1 1 0 2 0
Totals.....32 15 24 23 5

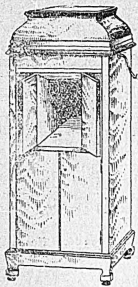

Score by Innings:
Edmonton.....101 011 008-4
Regina.....000 000 001-1
Summary—Two base hits, Morse. First on balls, off Dellar 2, off Grimes 1. Struck out by Dellar 2. Left on bases: Edmonton 5; Regina 8. Don't play: Grimes to Chandler. Stolen bases: Baxter, Lussit, Quigley. Sacrifice hits: Mills, Dellar, 2. Chandler. Hit by pitcher: Letcher. Time of game, 2:30. Attendance 1200. Umpire, Flaherty.

We Break the Ice
Donovan, lit through pitcher's box for a single. Chandler sacrificed. Windy to second. Quigley covering. First. Letcher grounded, second to Elsey. Walters grounded, second to Elsey. No runs.

Edmonton—Morse opened the game with a double to the left field fence. Mills let down a perfect punt, Pete taking third. Baxter got a life on Donovan's sickly error. Morse drew a throw to second, allowing Moose to score. Chesty received a warning of a costly opera hat when he stepped to bat and was so overcome that he fouled to McNutt. One run.

A Couple of Zeros
Regina—Lussit grabbed Hoffman's high fly. Collins' grounder was booted by Quigley. Morse made start pick-up of Walters' grounder and pegged the manager out at first. Deacon took McNutt's elegant fly with elegant ease. No runs.

FIRST PRIZE

\$125 PHONOLA

**GIVEN
ABSOLUTELY
FREE**

Full particulars of this Great Contest were published in the Capital, Wednesday, June 8th. Secure a copy of that date and get busy.—In all probability this fine instrument will go to some one who least expects it. You may win it if you try.

**NEW COLLEGE
FOR ALBERTA**

Presbyterian Assembly Decides to Establish Theological College at Strathcona

THE EDMONTON TRUSTEES

Dr. D. G. McQueen of Edmonton Was Appointed Chairman of Board of Management

Halifax, June 9.—The Province of Alberta, in which the churches and missions of the Presbyterian body have increased so rapidly during the past five years, is to have a theological college of its own and will in future educate its own ministers. This was the decision at which the general assembly arrived at its session yesterday afternoon after a spirited session.

The assembly appointed the first board of management and the first senate of the new institution. The building will be erected in connection with the provincial university in Strathcona.

The list of the members of the governing body includes those of the most prominent ministers in the province and about thirty well-known laymen. Among the latter are: Hon. Frank Oliver and Hon. C. W. Cross, Mr. Justice Stewart of Calgary; Jas. Short, barrister, of Calgary; John A. McDougall, M.P.P., Edmonton, and J. H. Douglas, M.P., Strathcona.

Dr. D. G. McQueen of Edmonton is named as chairman of the board of management and he is directed to call the board and senate together in joint meeting and elect a principal. It is planned that the work of instruction should begin in the present year. Temporary class rooms will be provided in the university.

The proposal did not go through without debate. Among those opposing the project were Rev. A. M. McGregor, of the synod of Saskatchewan; Rev. W. Beattie, of Cochrane; and Rev. Dr. Pringle of Sydney. All of these speakers referred to the fact that the church had already six theological colleges and the number of students in attendance was lamentably small.

Dr. McQueen stated that Alberta would take care of the college and that it would never be a burden on the church at large. Three men in his congregation were prepared to give \$10,000 apiece to the erection of a building. Among the speakers in support of the project were Lieut.-Governor Traut, Rev. W. D. Reid, Rev. Dr. Bryce, Principal McKay of Vancouver, and Rev. Dr. Scott of Montreal.

It was also arranged by the assembly that a boarding home should be built at Vegreville, Alberta. This is a project of Dr. Arthur, who has been conducting an hospital for the Ruthenian settlers at that point. The plan is to build an inexpensive structure and accommodate at the start about ten boys. The latter will be educated in the public schools and will later be the teachers, physicians, etc., among their own people.

Dr. Arthur expects to collect the money for the home personally, and will also arrange to finance the undertaking. The assembly simply committed the enterprise to the management of the denomination.

Rev. W. T. Hamilton, of Edmonton, and Rev. James Henderson, of Vancouver, minister evangelists, were given the status of minister, and Rev. W. T. Beattie, of Montreal, and Rev. W. W. Smith, of Yorkton, presbytery minister evangelists, will be given the status of ministers after spending one year in home mission work.

A large committee was also appointed to take under advisement the question of the securing of a large number of men for some mission work. Rev. J. A. McFarlane was named as home mission superintendent for Montreal and Ottawa. The report of the treasurer showed that on the funds of the church the amount of unpaid interest was less than five dollars. It is stated that the record of the church in this regard is not equalled by any investment company in Canada.

GETS HER MONEY BACK

American Girls' Marriage With Earl Was Not a Success

Pittsburg, Pa., June 9.—A deed of conveyance was recorded here today which practically removes to Alice Thaw, a sister of Harry Thaw, and former Countess of Yarmouth, the marriage dowry that was executed at the time of the wedding of Miss Thaw to the Earl of Yarmouth in this city in 1903. The properties involved produce an income of half a million a year.

**HEAT AND POWER
COMPANY'S OFFER**

Commissioners Hear Address by Solicitor of Company and Will Consider It

WANT MORE PARTICULARS

Other Matters Considered Were Permission for Boxing Tournament and Railway Facilities

The offer to sell electric power to the city by the Edmonton Heat and Power Company, Ltd., was the important question discussed at yesterday afternoon's meeting of the city Commissioners.

The offer of the company is in brief to sell the city 6000 horse-power at \$25 per horse-power per annum and an additional 4,000 if it is found necessary, at \$25.

Mr. M. V. Eager, solicitor for the company, was present and maintained that the figures submitted were very much lower than the present cost of production at the power house. The cost this year, said Mr. Eager, is at least \$60, while last year it was \$86. Mr. Eager showed what Winnipeg and Calgary were paying on a sliding scale for power. It cost the former city \$25 to \$50, while Calgary was entering an agreement to pay \$35 per horse-power.

In regard to an auxiliary plant, Mr. Eager did not say what guarantee the company would give that one would be established. He said that matter had not been considered, as other cities, such as Calgary and Toronto, had no such plants.

As Mr. Eager had no figures or statistics on hand, further consideration was postponed until he had them available.

Mr. Fred Ross, of Ross Bros, President McGeorge, Messrs. G. M. Morgan and H. Cooper of the Board of Trade, and Mr. E. C. Hopkins, comprising a number of local wholesalers, requested that the Commissioners look into the matter of bettering the shipping facilities for their warehouses.

An application was made for the erection of a tent with a miniature scale at the southwest corner of Jasper avenue and Fifth street. As the building clashes with the building bylaw, the Commissioners have to give the matter further consideration before deciding.

The application for permission to hold a boxing entertainment in the

Edmonton Opera House was granted. The fee was fixed at \$15.

Alderman Mould made a request on behalf of a resident of Lashburn that a number of second-hand wood blocks, used for paving between rails might be sold. A rate one dollar per cubic yard was granted.

The request of the association in charge of the championship meet in Lethbridge, that the use of the exhibition grounds for a trial meet be granted was allowed. The meet will take place on June 18th.

Some sites, considered suitable for factory construction, adjoining the new exhibition grounds, were submitted by Killen and Gilbert. These were referred to the mayor for investigation.

In consideration of a request by Bishop Grant and Delevant, with reference to licenses for agents representing local business, it was decided to amend the bylaw so that representatives of bona fide local concerns would be exempt.

It was decided that the sidewalk on Athabasca avenue between Third and Fourth streets, be moved out in order to allow teams to unload near the buildings.

SIR WILFRID ACCEPTS.

Ottawa, June 9.—Sir Wilfrid Laurier has accepted the invitation of Premier McBride to be present at a public reception in the legislative buildings at Victoria, B.C., to be given the federal premier on the occasion of his visit to the Pacific coast.

MUSEUM AT MONACO

Eleven years ago Emperor William went to Monaco to lay the cornerstone of an oceanographic museum for Prince Albert, who combines study of the sea with the not over-laborious task of ruling over his petty principality. The museum was completed a few weeks ago, and was formally opened by the prince himself in the presence of representatives from several European nations and before a company of men of science of many nationalities. The museum, which stands on the edge of a great rocky promontory of Monaco was intended at first for the accommodation of the specimens of ocean life that the prince has gathered in his many years of study of the sea; but this plan has been extended, until in the finished structure space is provided for as complete a collection of specimens as can be obtained. But the building is not a museum only; it is also a workshop or laboratory for students of oceanography. It is the only museum of its kind in existence, and will therefore be likely to attract men of science from all parts of the world.

**BAPTIST ELECT
THEIR OFFICERS**

Rev. H. S. Sneyd of Edmonton District Secretary of Alberta Association

Lethbridge, June 9.—The Alberta Baptist Association elected officers yesterday afternoon as follows: President, Rev. H. L. Kempton, Vermilion; vice-president, Rev. T. Dack, Calgary; secretary-treasurer, A. W. Ward, Calgary; district secretary, Rev. H. S. Sneyd, Edmonton; Rev. J. C. Bowen, Strathcona; Rev. T. R. Bryant, Rev. Bennett, executive

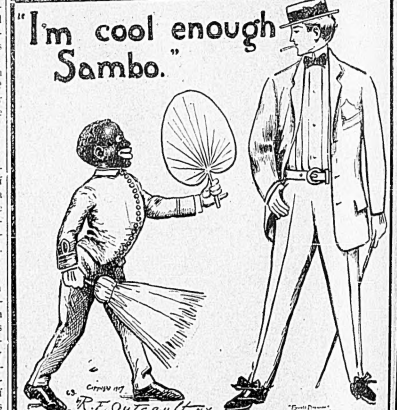

committee, Revs. A. Paulson, T. Underwood, R. W. Sharp, A. C. Newcomb and O. R. Stockford.

The feature of the session in the evening were the addresses by H. Ballantyne of Calgary, on "Men and Missions," and by Rev. H. L. Kempton of Vermilion, his subject being "In 1015—A Prophecy."

Mr. Ballantyne's was an interesting report of the recent Laymen's Missionary Movement convention in Chicago. Mr. Kempton had an enthusiastic vision of Alberta five years hence and the greatness of the opportunity before the Baptist Church in Alberta.

TORONTO VARSITY BEATEN

Baltimore, Md., June 9.—John H. this alumni lacrosse team yesterday defeated Toronto University by 2 to 1.

VERMILION LIBERALS

ARE ALL FOR SIFTON
(Continued From Page One)

taken into the confidence of the government. They should know just how the government stands. My first aim will be to put the affairs of the province on a businesslike basis. Just as soon as the finances of the province are put on a proper basis—and this will be when the legislature next meets—we will be able to find out whether the province is spending its income or drawing on its credit.

Relation to Constituency.

In speaking of his relations to the constituency, Premier Sifton said that in his previous small experience in politics he had never made any promises, and he did not intend to start now. He would, however, always remember that after the province as a whole, the constituency of Vermilion demanded his first thought and attention.

"What has struck me most," said Mr. Sifton in conclusion, "is the friendly way in which you have received me today, and I hope these friendly relations will continue and grow stronger as we get to know each other better."

Mr. Holden's Speech.

James Holden, M.P.P., said that he thought that the premier had done a very wise thing in accepting a rural constituency. The last cabinet represented city constituencies.

"And all the present cabinet will represent rural constituencies," remarked Mr. Sifton.

"I expected to hear the premier state his policy," said Mr. Holden. "He has not done so, and has given his reasons why he should not. He and his ministers have a very hard

row to hoe and many difficulties to overcome."

The speaker then went on to refer to the Alberta and Great Waterways deal, and said that he hoped the government would "tear this contract out root and branch, and either have the government build it, or else give the contract to another company." If the government did this, they would have the whole province behind them, according to Mr. Holden's opinion.

Will Be Boss.
"We have a man who is going to be boss," said Mr. J. Park. "If he does right, we'll stick with him. If he doesn't do right, he'll hear from us." "Hear, hear," exclaimed Mr. Sifton. "If the A. and G. W. trouble is overcome," continued Mr. Parks, "I believe that the Liberal party in this province will be as strong as it ever was."

Praise from Conservative.
W. F. H. Thompson, a prominent Conservative, said:

"We're all agin' the government as far as the A. and G. W. deal is concerned. I think that one thing this trouble has taught is that political lines should not be so rigidly drawn. Conservatives can join hands with the Liberals in supporting Mr. Sifton. I think, I believe he will make a good boss."

Dr. Ryan, a prominent Vermilion Liberal, said the premier has made as much reference to his policy as he wanted to hear. He was glad that Mr. Sifton had promised nothing, and for that very reason expected to get all the more out of him.

Resolutions Passed.

Resolutions than Mr. Campbell for the efficient way in which he had represented the constituency, and expressing confidence in Mr. Sifton, were then passed, and the meeting closed with the singing of the National Anthem.

Forecast—Manitoba, few local showers or thunderstorms, but mostly fair and moderately warm; Saskatchewan and Alberta, fair and moderately warm today and Friday.

Some heavy showers have fallen in Manitoba and light showers in Saskatchewan, but weather mostly fair and moderately warm.

About Town

The police magistrate had a light docket to deal with this morning, one drunk appearing. He was fined \$5 and \$1 costs or ten days.

The Y.M.C.A. and the Irish-Canadian will meet in a City League baseball game tomorrow evening at Taylor Park.

There will be a meeting of the Caledonian Football Club in the Separate School tonight at 8.30 for the purpose of selecting new representatives to the City League. All players and supporters are requested to turn out to this important meeting.

The roist football team will play the Sons of England a league match tonight on the Second street grounds at 7 p.m. All the roist players will meet at the Y.M.C.A. at 6.45 sharp. Both teams are in good shape and a close game is anticipated.

The following members of the Caledonian B football team are requested to turn out against North Edmonton on Friday night. Orr, Brice, Roxburgh, Rademacher, Terrance, Hunter, A. R. Murdoch, Hope, Conlin, Sampson, Reserves, Irvine, Gilmore and Bonner. The players will meet at the Y.M.C.A. at 6.30 sharp.

The baseball game last evening between the Bankers and Ross Bros. team resulted in a win for the hard-war experts by the close score of 5 to 5. The contest took place at Taylor Park and was witnessed by a fair-sized crowd. The battery for the winners was Drayton and Johnston. Umpire, Matthews.

FOUND THE MAN IN TEN MINUTES

Enquiry for Missing Man Received at Immigration Office Answered in Short Order

The immigration office received a letter from Ottawa this morning containing a communication from the Canadian Immigration Agent at Charing Cross, London, Eng., inquiring as to the whereabouts of one Geo. S. Allen, and in about ten minutes after the receipt of the letter the authorities had located the man wanted at the farm of S. J. Bentley, about ten or twelve miles southeast of the city.

Allen lived in Chipping Warden, England, and left there on March 24th without informing his relatives of his destination. They believed, however, that he had come to western Canada. He arrived at Halifax on April 1st, on the Allen liner Corsican, and came straight to Edmonton, securing work with Mr. Bentley. Since leaving home his father had and it is understood that considerable property has been left to him.

Clever But Cutting
"It seems cruel to slaughter all those pigs for market," said the Chicago girl.
"I don't know that it's cruel," replied Miss Cayenne, "but when you think of what the packers charge for the meat, it does seem a little unfair."—Washington Star.

A male might kick, but if you get an outfit from HORN'S LIVERY there will be nothing but pleasure for you. Phone 1234.

Where the Good
Clothes Come From

The Day in Strathcona

Prof. Edwards and Prof. McEachern returned yesterday from a short business trip to Camrose.

Mr. and Mrs. Jackson accompanied by their daughter, Mrs. R. B. Douglas, have returned to Winnipeg.

The Ledue baseball team will play a game against a Strathcona team on Monday at the Agricultural Grounds at 6.45.

The court of revision meets on Tuesday, June 14th at 10 a.m. The court will not have a long session, probably, as few appeals against the assessment have been received to date.

Mr. W. M. Yule, a favorite comedian in this city, will give an entertainment in the "Cuddles" hall on Friday evening. It will consist of a series of one-act farces.

The funeral of the late Mr. G. R. Renna took place at Strathcona cemetery today. The death of Mr. Renna occurred very suddenly and unexpectedly, though he had been suffering for some time. He was 45 years of age.

At a meeting of the Ladies' Aid of the Metropolitan Methodist Church on Tuesday it was decided to run a refreshment booth on the grounds on July 1st. The ladies will serve a first class meal at a moderate price and in the interval between will serve light refreshments.

On Friday evening there will be a battle royal at the Agricultural grounds, when the luscious rivals, the Whitebirds and the Cyclones meet for the first time this season in a game of baseball. The battery for the Whitebirds will probably be Parsons and Richards. The Cyclones are playing a dark horse and keeping their battery a profound secret.

The West End of the city presents a very busy scene these days. A large gang of men is working on water and sewer connections. Work on Alberta College and the University dormitory is proceeding with all possible despatch. Many private residences are being constructed and the men are busy with the commencement of work on the high-level bridge. Now is a splendid opportunity to boost Strathcona. Lets all boost!

WANTS UNIFORM MARRIAGE LAWS

Important Resolution Brought Before the Church of England Synod at Ottawa

Ottawa, June 9.—At a session of the Anglican Synod, Rev. E. F. Gorman presented notice of a motion asking the synod to pass a resolution favoring the unification of all marriage laws of the Dominion. The resolution states that recent cases which have come to light in Quebec in which dissolutions of marriage have been made by ecclesiastical authorities. This, it says, should be done away with and the marriage laws of Canada be made the same in all the provinces.

BURNS GETS HIS RAISE.
Labor Member of British Cabinet to Have Higher Salary.

London, June 9.—In the House of Commons Mr. Asquith, premier, announced that the salary of the Rt. Hon. John Burns, president of the Local Government Board, will be five thousand pounds.

Buy your oxfords at Kelly & Moore's.

TO BE SOLD

SEVEN-ROOMED BUNGALOW in Great Estate on 40 foot lot; small paying down, balance \$28.00 per month.—Apply Box 12, Daily Capital.

Personal

Mr. and Mrs. A. R. Davidson, and son, of Winnipeg, are guests at the Alberia.

The death is announced of William Waterworth, a leading citizen of Ingersoll, Ontario, who was well-known to many in Edmonton, having visited the city three summers ago.

Monday's Lethbridge Herald says: J. K. Cornwall, M.P.P., who has invested in considerable real estate here, was in the city yesterday. With Mrs. Cornwall he leaves tonight to witness the last of the buffalo round-ups in Montana.

HAROLD FURNISS, ARTIST, IS DEAD

His Work Was Published in Punch and Other Well Known Periodicals

London, June 9.—Harold Furniss, the well-known artist, is dead. He was born in Westford in Essex, son of an English engineer, Elias MacKenzie of Newcastle-on-Tyne. At the age of nineteen he settled in London and for years was a contributor to such well-known periodicals as the Illustrated London News, Graphic, Black and White. As a humorous lecturer he toured the United States and Canada. He joined the Punch staff in 1880.

HEALTH OFFICER SCORES PARENTS

They Are Often Notoriously Careless Regarding Milder Infectious Diseases

In making his report for the month of May on the Isolation Hospital and infectious diseases in the city, the Medical Health Officer says the following:

"The number of infectious diseases reported was 124, of which more than half were measles and German measles which have been somewhat prevalent for some time. Many householders are notoriously careless regarding these diseases which they regard as trifling and fail to call a physician or report promptly to the Health Department. A limited quarantine is imposed in all cases and children infected or exposed are kept from school until a certificate of complete recovery is issued. The vigilance of the school board and teachers is of great assistance to the Health Department in detecting and quarantining infected cases. The limited quarantine imposed to be effective must depend to a great extent on the intelligence and honesty of the householders for its proper observance. It is a matter for congratulation that the city still remains practically free from typhoid fever, of which only four cases have occurred, three of which were from outside the city."

In commenting on the deaths at the Isolation Hospital Dr. Whitelaw says:

"The number of deaths were seven in all, three advanced cases of consumption, three of malignant scarlet fever, and one of haemorrhagic measles, a colored patient, but it is now evident was a case of haemorrhagic smallpox, death occurring before the disease was possible to make a positive diagnosis of smallpox. Two cases of smallpox have developed since, both of which evidently contracted the infection from this case. Both have been removed to the quarters provided for such cases and all possible precautions have been taken by vaccination and disinfection to limit the spread of the disease.

The occurrence of this case as well as several others of mixed infection of late, makes it imperative that we should have at our disposal the suitable wards for doubtful cases and this end it is necessary at the earliest possible date to provide sleeping accommodation for the nursing staff outside the hospital."

NEW STEAMER STO CANADA.

London, June 8.—It is reported that two express steamers will be built for the White Star Dominion Line for service between Liverpool and Canada.

MOUNTED RIFLES SAVED EDMONTON

Hold Back the Fusiliers Who Were Advancing Down the River

BATTLE OF CAPITAL HILL

"'Twas a Wondrous Victory" Although Nobody Was Killed and All Fought Well

The golf course was the scene of a thrilling military spectacle last evening, when a sham battle was between the Alberta Mounted Rifles and the roist Fusiliers. A large number of spectators gathered on the railway tracks and at the end of Twenty-first street to witness the fight, which lasted about an hour.

The defending force, the Alberta Mounted Rifles, half of whom were mounted, the rest on foot, commanded by Capt. Griesbach, took up their position behind the piles of lumber in the back yard, with their mounted men stationed among the trees on either side.

Presently the attacking force, the roist Fusiliers, under Colonel Edwards, were seen advancing up the centre of the golf course, in open order.

The defenders opened fire, but after a while were forced to retreat from the brick yard, and, keeping the rifle in check, well planned and determined stands, they gained the shelter of Capital Hill.

The plan of the battle was that the A.M.R.'s were to cover the retreat of the roist Fusiliers, which had previously been defeated, and were to hold the roist in check until they could gain Capital Hill.

The firing was intermittent—the whole battery reverberated with the rattle of the rifle fire, from the tree on the river bank came continuous vicious spits of flame followed by the sharp crack of the rifles.

From the elevation of the railway track and roadway, the sight was a thrilling one. The line of men, lying flat on the grass, accentuated by puffs of smoke; and every now and then as the opportunity occurred, jumping up to advance a little, using every available bit of cover from the enemy's fire.

From the civilian spectator's point of view the efficiency of both sides was admirable, and this was borne out by a remark which one of the combatants was heard to make, "that he did not see anyone to fire at the whole time." This shows how cleverly every bit of cover must have been taken advantage of.

Apart from the fight, there were several amusing incidents, and some of the spectators, mainly the ladies, were overheard to make some very laughable remarks. The old man who was with the cows in the field, which the defenders were retreating, shouted out as soon as the firing began: "Yez hev kilt me cow!" and would not be comforted; while one of the ladies got extremely excited and, on the advice of one of the officers, got into the firing zone, and immediately though they would be shot; but her company was distinctly commended and remarked, when the defenders were running to gain cover, that they were "a tremendous aid to the standard."

Another the outing was a great success and this style of active work on a tremendous aid to the standard of efficiency which the militia are seeking to maintain.

MR. ANDREWS INJURED.

Mr. Alex. Andrews, of W. V. Andrews and Son, living at 104 Ottawa avenue, was thrown from a horse in the vicinity of the Cameron House about seven o'clock last night, sustaining slight injuries about his head. Connelly and McKinlay's ambulance was taken to the General Hospital.

TWO MILLION MORE ACRES UNDER CROP

Estimates Issued by Northwest Grain Dealers Shows Nineteen Per Cent. Increase in Wheat

Winnipeg, June 9.—The Northwest Grain Dealers' Association estimates that six acres under crop in Manitoba, Saskatchewan and Alberta, June 1, as follows:

	1909.	1910.
Wheat (acres)	7,103,200	8,453,200
Oats	4,217,400	4,225,800
Barley	955,250	1,023,000
Flax	349,550	630,000

OLD-TIMERS WILL FIGHT
St. Louis, June 9.—Bill Clark, the "Hells Chicken," received an offer today from Bill Delaney of San Francisco to box a preliminary of four rounds at the Jeffries-Johnson fight. Clark is 84 years old. His opponent is to be Jim Mace, 79 years old. Delaney wrote him and now is waiting Mace's answer. He offers to pay the former, ninety-five per cent. expenses to San Francisco and \$500. Clark and Mace had a rough fight in the Empire Theatre, New York, back in the '50s.

LOW TEMPERATURES SAVED MONEY THERE

Boston, Mass., June 9.—Many thousands of dollars have been saved in New England this spring by the unusually low temperatures, which have destroyed the brown-tail moths and caterpillars in numerous districts. The moths have been especially destructive in Boston suburbs in former years, and immense sums of money have been expended in the anti-moth campaign.

AUXILIARY ELECTS OFFICERS TO-DAY

Anglican Women Now in Convention Pass Votes to Assist Missions

At this morning's session of the Woman's Auxiliary of the Anglican Church for the Province of Alberta, the election of officers for the ensuing year took place. The election resulted as follows: Honorary-president, Mrs. Pinkham; president, Mrs. W. L. Bernad; first vice-president, Mrs. E. A. Lilly; second vice-president, Mrs. James Child; corresponding secretary, Mrs. Thos. Bell; recording secretary, Mrs. W. J. P. Johnson; Dorcas secretary, Mrs. W. J. McLeod; assistant Dorcas secretary, Mrs. C. W. Peterson; treasurer, Mrs. E. C. Gross; secretary-treasurer, Mrs. C. W. Peterson; secretary-treasurer, Mrs. E. C. Gross; fund, Mrs. H. A. Allison; secretary-treasurer, Mrs. W. A. Geddes; Mrs. J. J. Priestly; representatives to general board, Mrs. W. A. Geddes and Mrs. Geo. Webb.

Last evening a mission meeting was held at which Rev. W. M. Boyd, who is chaplain to the Archbishop of Canterbury, made the interesting announcement that the Church of England in the country had voted \$100,000 towards the movement in the northwest.

Yesterday afternoon, the Auxiliary voted \$500 to the fund for the assistance of clergy and also made contributions to various missionary movements, including the China missions.

CONFERENCE NOW ALMOST CERTAIN

Asquith Will Probably Issue Formal Invitation Within a Few Days

London, June 9.—A conference of party leaders seeking a solution of the difficulty arising from the veto of the House of Lords is almost certain to be held very soon. King George has indicated an earnest desire that a resolute effort should be made to avoid the resumption of the struggle between the two Houses and it is believed that Premier Asquith will take the initiative within a few days and extend a formal invitation to opposition leaders who are known to favor the plan to take part in the conference.

Walter Long's announcement that any suggestion of a conference on constitutional questions by the government will meet with a ready, willing and patriotic response by the opposition, coupled with the intimation in the House of Lords that Rosebery's reform resolutions would not be carried, has led to the immediately raised hopes of a settlement without an election. These hopes, however, were not strongly held as the Liberals demand are clear cut and undoubtedly the majority of the party are well-versed in the laborious and will firmly demand that both the veto and the finance legislation must go on. A factor favoring such a conference, however, is the fear both parties have in the present mood of the country, of appearing in any way to force the contest.

For the Garden

A fine lot of Bedding Plants at 35c per dozen. Now ready:—Asters, Pansy, Phlox, Verbena, Snapdragon, Lobelia, Wallflower. Others ready later.—We are now filling Hanging Baskets and Window Boxes. Let us have your order now and avoid delay.

UNION STATION SCHEME FAVORED

Commissioner Bouillon Says Railway Terminal Question Will Be Taken Up Soon

C. N. R. LIKES THE IDEA

Mr. A. D. Davidson Said Negotiations for Union Station Are Already on With G.T.P.

"Just as soon as the more pressing needs of the city are attended to, we will take up the matter of working out some scheme whereby the railroads will all have their lines north of Alberta avenue. The question of a union station and a terminal company to handle the local freight will also be examined."

Commissioner Bouillon made the above statement to the Capital City this morning in answer to a question as to what he thought of Mr. Potter's scheme for a Capital City terminal in this city.

The matter was brought to the front this morning owing to a statement made by Mr. A. D. Davidson of the C.N.R. land department to the effect that he thought the C.N.R. would be in favor of such an idea, and that they were already making arrangements with the G.T.P. for a union station.

According to Mr. Bouillon it will be very necessary for the city to take up the railway question in the near future. He thinks that the idea of a terminal company under the control of the city is a particularly good one, and that the railroads would be only too glad to have their freight handled in this way. In this connection Commissioner Bouillon expressed the opinion that the city would now secure sites for industrial purposes, and secured the terminal needed also, it would be a great inducement for manufacturers to come here, as they would always be pretty sure of having properly treated in the matter of freight handling.

OLD CAR BARN TO BE EXTENDED

With the Proposed Additions They Will Have Room for Nineteen Cars

Although the new permanent car barns will not be erected this year, it is anticipated that the Commissioners to build an extension to the present barns, thus practically doubling the capacity. The extensions will be made on the north and east sides of the present barns, and when these are completed the barns will have a total capacity of about nineteen cars.

Commissioner Bouillon stated that it is expected that it would be impossible to do any work on the new car barns this year, and owing to the fact that six new cars will be added to the present stock of the railway before winter, it was absolutely necessary to have some place where they can be placed in stormy weather, and where repairs could be made on the extensions will be started within a fortnight.

NO CHANCE NOW OF REMOVING EMBARGO

Action of British Board of Agriculture to Argentine Also Knock to Canada

London, June 9.—Sir Edward Strachey officially announced the decision of the Board of Agriculture refusing to remove the embargo on Argentine cattle. The hopelessness of an attempt to revive a movement for the removal of the Canadian embargo is also recognized.

We have just received another shipment of Ganong's "chocolates," absolutely fresh Edmonton Drug Co.
